

Welcome to **LOR Technologies**

LOR Technologies understand the modern-day application of relevant technology solutions to help business engage better with customers, free up time to be productive and increase customer satisfaction levels by some margin.

LOR Technologies has developed inhouse solutions and partnered up with international service providers to put forward an exceptional suite of products within its product portfolio.

Ranging from Online customer engagement selling tools, to platform, Video AI solutions and RPA development projects, LOR Technologies are at the forefront of delivering world class technology solutions for any industry type and any size business.

Live Online Retail
